Since its founding, TPI has grown to become a leader in the Design, Supply and Manufacture of Bulk Material Handling Systems. We design systems that handle a variety of materials including:

Crushed Stone,
Wood Chips,
Biomass, Hog
Fuel, Sugar,
Sugar Cane and
many others.

Project Sizes
range from a
single Screw
Conveyor or Belt

Quad Screw Feeder w/ Bin

Conveyor to Complete Turnkey Processing Systems to include chutes, bents, structural towers, installation and start-up.

With well over 150 years of combined Material Handling experience, TPI has the expertise to Design, Manufacture and Install a Material Handling System to meet your specific requirements. We strive to understand your particular operational needs, so you don't have to settle for the cookie-cutter solutions you might get from others.
